

EUROPEAN RESEARCH INFRASTRUCTURES IN THE FIELD OF COMPUTER SCIENCE : WHAT ARE THE CHALLENGES ?

Christian Chardonnet

Head of the department of large scale research infrastructures
French Ministry of Higher Education, Research and Innovation

27 mai 2019

THE QUESTION OF REPEATABILITY AND REPRODUCIBILITY IN COMPUTER SCIENCE

WHAT DO WE REALLY MEAN BY RESEARCH INFRASTRUCTURES ?

Basic criteria :

- RI must provide services for a broad scientific community (concerned by the scientific field) for projects selected on the basis of scientific excellence
- The governance of the RI must be centralized : it is not a network of research infrastructures

IS A RESEARCH INFRASTRUCTURE IN THE FIELD
OF EXPERIMENTAL COMPUTER SCIENCE AT THE
EUROPEAN SCALE OR MORE GLOBALLY
POSSIBLE, USEFUL, NEEDED ?

This your challenge !
